WEATHERIZATION

WHAT A BRIGHT IDEA.

Funded by the Department of
Community & Economic Development

**The Montgomery County
Community Action
Development Commission**

WHAT IS IT?

Weatherization is a program for assisting individuals with limited income to cut their fuel bills, and save money by having a more energy efficient home.

WHO PAYS FOR THIS?

The state and federal governments pay through your tax dollars.

There is no cost to you for any labor or materials, and no lien is ever placed on the house or property.

WHERE'S THE CATCH?

There is none. Just ask your friends and neighbors. Every month, more than 2,500 homes across Pennsylvania are being done.

WHAT IS DONE?

An Energy Auditor will visit your home to determine what work

needs to be done. The work will then be given to a contractor, who will make repairs that may include: caulking windows, window repairs, energy efficient light bulbs pipe wrap, attic insulation, weatherstripping doors, adding door-sweeps, and tuning up gas or oil heaters if needed.

WHO QUALIFIES?

Anyone either owner or renter, who occupies the home they wish to have weatherized and whose income in the past 12 months does not exceed the guidelines.

WHY SHOULD I APPLY?

You can't afford not to! You need to save money. We all need to conserve energy. Through weatherization, both can be accomplished.

INCOME GUIDELINES

FAMILY SIZE	INCOME
1	\$ 21,780
2	\$ 29,420
3	\$ 37,060
4	\$ 44,700
5	\$ 52,340
6	\$ 59,980
7	\$ 67,620
8	\$ 75,260

Add \$7,640 for each additional member.
